Being retained in Altrive stud

welcome

Welcome to our tenth on-farm deer auction.

I took over the Family Sheep Farm in 1979 and started performance recording 200 of our commercial ewes which resulted in us selling rams and starting a registered Romney stud as well.

In 1985 we brought our first hinds and so naturally we recorded them too. After five years we were running approximately 200 share farmed hinds, all recorded, as well as our own small herd of around 50 hinds. During the early years we selected on growth rates and then moved on the velvet as well, keeping 2yr old stags that cut a minimum of 1.3kg.

Since 2008 our 2yr old keepers have averaged over 4kg.

This year's 3yr sale average is 7.6kg.

We will also be offering a number of 2 old velveting stags.

Photos of velveting stags should be on our website www.altrivereddeer.co.nz by the New Year.

After the sale you are most welcome to stay for a BBQ and Refreshments.

Conditions of Sale

1. The Sale will be conducted by PGG Wrightson with the conditions of sale as set down by the Stock and Stations Agents Association, a copy of which is exhibited in the office on sale day.
2. Each lot becomes the purchaser's property and risk at fall of the hammer.
3. Warranties and Insurance are covered under separate headings.
4. Terms are strictly cash unless prior arrangements are made with the auctioneers. Accounts not paid within 14 days of sale shall bear interest, at current rate per annum from the date of sale.
5. The sale is conducted exclusive of GST.
6. A buyers commission of 4% is payable to non-participating companies and recognised independent agents introducing and accompanying purchasers to the sale providing prior arrangements [No later than 24hrs prior to sale] are made with PGG Wrightson.
7. Intending purchasers are required to register with the auctioneers prior to the commencement of the sale.
8. No Animals, embryos or semen sold by Altrive, or their germplasm, any subsequent progeny or germplasm, including the semen and germplasm of that progeny may be supplied to a third party without the written permission of the stud.
9. This condition does not affect normal commercial deer farming or stud farming or the normal sales of semen or embryos as it only applies to entities with the primary function of commercial semen/germplasm activities.
10. It is a condition of sale of any animals, embryos, germplasm or semen sold by Altrive that the purchaser agrees to include the following clause as a condition of any subsequent sale or gift of any animal, embryo, semen, germplasm or subsequent progeny or germplasm to a third party- "the purchaser acknowledges that it will not supply any animals, embryos, semen or germplasm to any commercial semen/germplasm marketing or sales entity, and will ensure that this clause is inserted as a condition of any sale or gift of any animals, embryos, semen or germplasm."

2021 Sale addition

This page of text was a hand out at our 2018 auction about Lot1 and his pedigree. Also relates to Lot100 - 148-17, added to 2021 sale after catalogue was printed.

Lot One

This stag has a very powerful velvet pedigree that I want to talk about.

Having hinds that produce sons good enough to be sold as sires is good but a hind that produces a son good enough to be used in the stud is a big step up.

His dam line and 152-01 mother of Victrix are mentioned a lot in the catalogue.

This dam line started when in 1988 we purchased 136-85. She was in fawn to a stag from Rob Brookes – She had a hind fawn, 23-88 who had a son that cut 5kg.

23-88 also had a daughter 9-90 and we used 2 of her sons in the stud.

9-90 is the dam of 67-92 and we used her son 106-96 in the stud. He was then sold as a trophy around the 400 mark.

67-92 is the dam of 46-95 who produced 2 sons used in the stud. 78-02 and 186-04. His head is on the wall. Both then sold as trophies around the 480 SCI.

46-95 is the dam of 152-01 with 3 sons sold as sires and one being Victrix – He was sold to Arawata as a 2yr old and has gone on to score 640 IOA @ 7yr and features strongly in Arawata's catalogue.

184-12 is the dam of lot one this year and is a full sister to Victrix – We used her son 177-14 last year at 2yr old and are using 34-14 her other son this year as a 3yr old.

This will mean we will have used two sires out of this dam too.

Lot 6 155-14 8.55kg and lot 9 47-14 9.85kg are out of another full sister to Victrix and hind 184-12.

Lot one Tag 177-14 was sired by Everest as a natural mating after using his dam as a Donor hind mated to Harlem. We are retaining one of her Harlem sons 34-14 who features on the back cover of the catalogue.

We used 177-14 as a 2yr old and with what I consider is the most powerful velvet pedigree you could find I think he will prove to be a top sire.

He is a late natural mating after an ET program to a 15 month hind.

He weighed 70kg as a weaner at the end of IV larch then went on to weigh 218kg at 3yr. Look at his spiker velvet with an incredible beam circumference of 22cm His velvet weight of 8.4kg could have been heavier as he was cut to get his head off in time for the Nationals.

All the above also applies to lots 6 and lot 9 with the only difference being lots 6 and 9 are both out of 207-12 an embryo sister to 184-12 the dam of lot one and the dam of Harlem son 34-14 that we are retaining.

207-12 and 184-12 have each produced in one year an incredible stag by an ET mating then they have each produced another incredible stag by a different sire from natural mating after ET.

The following hind lots are also out of the above dam line. Lots 41 44 49 58 60 83 85 87 93

This page follows on from the previous page we had as a handout in 2018 about lot one 177-14 we sold in our 2018 auction.

Very powerful pedigree going back to hind 136-85.

This page mentions daughters from this line and sons they have produced and offered in our January 2021 sale.

Lot 2 167-17 out of 77-14 sister to sire 34-14
Lot 17 144-17 out of 77-14
Lot 9 282-17 out of 77-14

Lot 16 154-17 out of 207-12
Lot 5 147-17 out of 207-12 (See previous page.)

Lot 8 48-17 out of 48-14 daughter of 207-12 above.

Lot 11 119-15 5yr sire out of 156-12 ET sister to 184-12 and 207-12

Lot 21 186-17
Lot 22 162-17
Lot 100 148-17 (Being sold after lot one.)
And 145-17 On front cover and being retained. All out of 82-14 ET sister to 77-14 and sire 34-14.

We are including 148-17 in sale because we are going to use 87-18 7.3kg @ 2yr old Joseph son out of hind 45-14. She is another ET sister to 82-14, 77-14 and sire 34-14.

The other 2yr old we will use is Harlem son 106-18 7kg @ 2yr out of 295-15. She is a full sister of 177-14 lot one 2018 that the previous page is about.

This must be one of the strongest, if not the strongest dam line for consistently breeding top velvet sires.

When we as deer farmers use a new sire we have to wait 2 years to see the progeny's first proper velvet heads but with breeding like above behind them it gives confidence you will have a consistent, good hit rate.

yearling hinds

Lots # 40 - 94

We consider the hinds we are offering in this sale are another big step up. Our 2019 ET program was very successful and we are retaining approximately the top 25 or 30 of these hinds. This year it has been even harder to decide what to retain and what to let go. So many of the sale hinds have top pedigrees with proven documented performance. The sale pedigrees only show 4 generations, and a lot of these hinds have pedigrees that are impressive, going back 8 generations.

Please note:

these hinds are
NOT RANKED
they are catalogued
in tag order.

Note also that to allow more space to display the stags we are only penning a **REPRESENTATIVE CUT** of the yearling hinds.
